EDUCATION

DIT University

BTech Computer Science *GPA: 3.92*

Dehradun, Uttarakhand
September 2022 - September 2026

Rishiram Shikshan Sansthan

Class XII PCM *GPA: 4.0*

Uttarkashi, Uttarakhand

Rishiram Shikshan Sansthan

Class X *GPA: 3.7*

Uttarkashi, Uttarakhand

EXPERIENCE

IIT Roorkee- Cognizance

Participant - FIT Fusion

Roorkee
March 2025 - March 2025

- Developed a comprehensive web-based Admin Panel and mobile app focused on personalized diet and exercise plans using machine learning algorithms. Integrated real-time user exercise performance tracking to provide actionable insights and improve fitness outcomes. Utilized Supabase as the backend platform for efficient data storage and user management. Collaborated with a team to design, implement, and test AI-driven features enhancing user engagement and health monitoring.

SKILLS

Java, Python, R, SQL, HTML, CSS, React, MongoDB, C:

PROJECTS

FitFusion – AI-Driven Fitness Admin Panel *React.js, Supabase, Machine Learning (Python)*

https://github.com/SahajDang/FITFUSION_ADMIN

Developed a web-based admin panel for a fitness platform that provides personalized diet and exercise plans using AI models.

Feedforward Neural Network Classifier *Python, NumPy*

<https://github.com/SahajDang/Feedforward-NN-Classifier>

Implemented a feedforward neural network from scratch to classify datasets with multiple features. Developed functions for forward propagation, backpropagation, and gradient descent without using deep learning libraries.

2D Spider Game *Java Swing, AWT*

<https://github.com/SahajDang/2D-SpiderGame>

Designed the UI and game logic from scratch, showcasing skills in Java GUI programming and event-driven design.

Guessing Game *Java (Console Application)*

<https://github.com/SahajDang/GuessingGame>

Created an interactive console-based number guessing game where the player tries to match a randomly generated number. Allowed user-defined number of attempts (up to 5) with randomized number generation to ensure fair gameplay.

Personal Portfolio Website *HTML, CSS, JavaScript*

<https://github.com/SahajDang/Portfolio>

Designed and developed a responsive portfolio website to showcase projects, skills, and contact information. Implemented smooth navigation, interactive UI elements, and a clean layout for optimal user experience. Hosted the site via GitHub Pages for public access and visibility.

Hand Gesture Controlled Tower of Hanoi *Python, OpenCV, Mediapipe*

<https://github.com/SahajDang/gesture-hanoi>

Developed an interactive Tower of Hanoi game using OpenCV and Mediapipe for real-time hand gesture recognition and control.

AWARDS AND HONOURS

Participant – FitFusion (Tech Event)

Certificate of Participation awarded by IIT Roorkee for successfully participating in FitFusion.

IIT Roorkee
March 2025

Co-Author – The Heaven is Pink (Anthology)

Received a Certificate of Appreciation for being the co-author of the anthology "The Heaven is Pink", compiled by Dr. Arshdeep Kaur & Monika Verma. The book was published under ISBN: 978-93-5605-409-7 by Let's Write Publication.
